

## HOW TO USE SUFFIXES TO CREATE NOUNS FROM ADJECTIVES AND VERBS

### KATA IMBUHAN

Sama halnya dengan bahasa Indonesia, di dalam bahasa Inggris juga terdapat kata imbuhan. Dalam bahasa Indonesia, kita mengenal tiga jenis imbuhan yaitu awalan, sisipan dan akhiran. Tidak jauh berbeda, bahasa Inggris juga memiliki prefix (awalan), infix (sisipan) dan suffix (akhiran). Perbedaannya, kata imbuhan di dalam bahasa Inggris akan mempengaruhi bentuk dari kata yang dikenainya, misalnya merubah adjective (kata sifat) atau verb (kata kerja) menjadi sebuah noun (kata benda).

### PENGERTIAN SUFFIX

Pada artikel ini akan dikupas tuntas mengenai suffix khususnya dari bentuk adjective dan verb ke bentuk noun. Sebelum masuk ke dalam jenis-jenis dari suffix atau akhiran dalam Bahasa Inggris, sebenarnya apa sih arti dari suffix?

Dilansir dari Cambridge Dictionary, suffix adalah huruf atau kelompok huruf yang ditempatkan di akhir kata atau root atau bentuk paling sederhana (base form) dari suatu kata dan tidak dapat diuraikan lagi.

Tujuan dari penambahan suffix atau akhiran adalah untuk menghasilkan kata baru. Suffix bukanlah kata dan tentunya tidak bisa berdiri sendiri dalam sebuah kalimat. Dengan memahami suffix, maka akan semakin mudah untuk Anda dalam memilih kata yang sesuai dalam percakapan serta menyederhanakan pengucapan.
